

LIVING WITH GREEN

Xylos has introduced a unique "green product" called Green Elements. It is high performance, environmentally smart bamboo flooring and panelling range. The bamboo strands are bonded together with resin at very high temperatures. It is pertinent to note that the density and durability of this product is very high. It comes in 6 colours in a lacquer finish with shades ranging from red forest, carbonized, carbonized hand painted black, golden wheat, merlot and dark walnut. Green Elements products are carbonized to kill moisture.

BOLD AND ARTISTICALLY CRAFTED
